Winter Storm Briefing

Thursday, December 10, 2015

- **Breezy tonight** as a cold front pushes into the region. Wind gusts to 50 mph along front, mainly in the high country. Winds shift north and northwest behind the front and decrease. Winds decrease ahead of the front Friday afternoon.
- **Snow begins north of I-70 late this evening**, and **shifts south Friday**. Precipitation most widespread along and north of the front.
- **Area of heavy snowfall sets up along SE Utah to Steamboat Springs line Friday afternoon to Saturday morning. Uncertainty on exactly where this line will set up.** Could drop **3 to 6"** over the I-70 corridor from Rifle eastward, **6-12+"** for western CO and SE Utah high mountain areas.
- **Snowfall decreasing from the west Saturday.** Improvement reaching continental divide by late Sat. night.
